Prototype with Sketch!

Marvel is the quickest way to turn your artboards in Sketch into beautiful interactive prototypes - without needing to code!
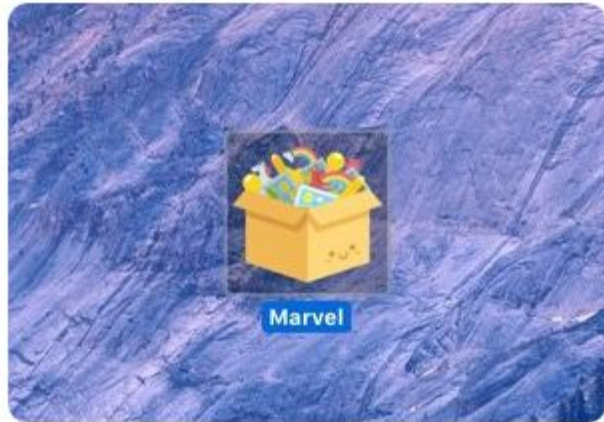

How to get started for free:

**Step 1**

Create your free account on
www.marvelapp.com

Step 2

Install the Marvel Sketch plugin by opening 'Marvel' in the folder

Step 3

Sign in to your Marvel account via the plugin screen.

Step 4

Select your artboards and click 'Sync Selected' or 'Sync all' or by hitting hitting ⌥ + ⌘ + F on your keyboard!

That's it! Your designs will now be in your Marvel project, ready to prototype!
